H&S configuration and customer support in Poland.

Manufacturer material. Example conversion.

A conversion for emergency response.

Ambulance sales and customer support in Poland: H&S Ambulanse.

H&S Product Overview - English. Vehicle configuration and equipment are agreed individually.

PRODUCT / KEY FEATURES

Designed around the team.

A modular conversion for emergency response. The interior brings together patient space, crew working areas and access to equipment.

01 **Modular layout**

Working zones arranged for the team’s tasks.

02 **ABS components**

Interior surfaces designed for easy cleaning.

03 **Patient access**

Planned crew positions and interior fittings.

04 **Seats and stretchers**

A layout selected for the available vehicle space.

05 **Storage and mounts**

Organised access to equipment and supplies.

06 **Lighting and power**

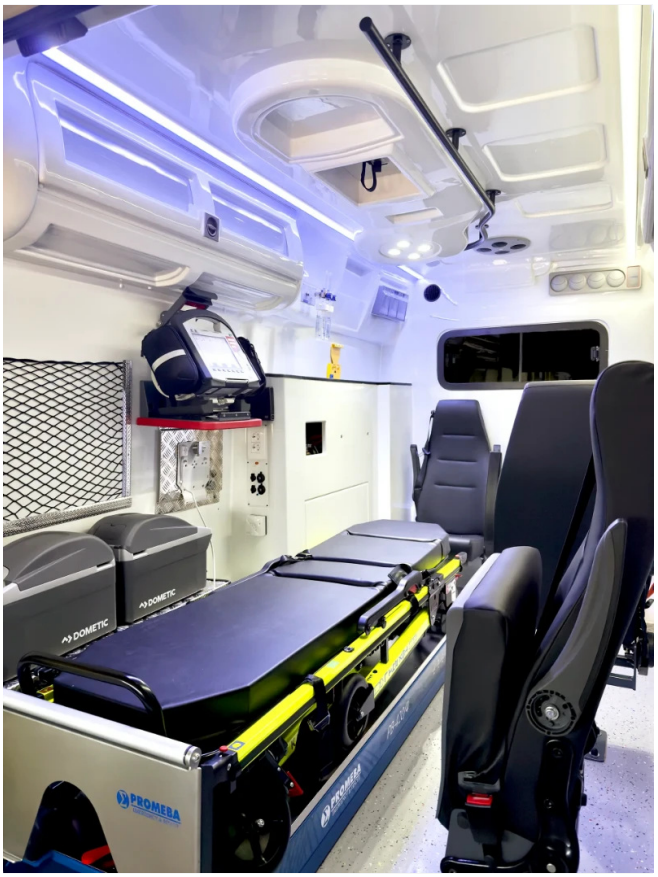

Systems planned around medical equipment.

H&S turns your operational requirements into a configuration and quotation.

INTERIOR / ERGONOMICS

An interior that supports your workflow.

Storage, seats and equipment form a medical compartment layout suited to the team’s work.

Example interior on an Opel Movano platform.

Example medical compartment layout.

Photographs show separate examples of the manufacturer’s conversions and equipment.

CONFIGURATION

Configuration starts with your working requirements.

The interior and systems are planned around the vehicle’s tasks and the equipment used by the team.

Seats and stretchers

Crew positions and patient space selected for the layout.

Storage and mounts

Space for the equipment and supplies used by the team.

Systems

Power supply and control arrangements.

Lighting

Interior working zones and illumination.

Medical equipment

Team requirements guide equipment selection.

Start with your requirements.

Tell H&S about the vehicle’s role, crew and planned equipment so we can prepare a quotation enquiry.

A base for your configuration.

Platforms shown in the manufacturer’s materials:

Volkswagen Crafter **MAN TGE** **Stellantis**

Example conversion on a Volkswagen Crafter platform.

Documentation with H&S

For the selected vehicle, we establish the documentation for the conversion, equipment and registration.

An overview of solutions

This overview presents conversion possibilities. The specification and documentation scope are agreed for the order.
