Sales and customer support in Poland

H&S AMBULANSE POLSKA

Świebodzin, Poland

Manufacturer material. Example conversion.

H&S Product Overview - English. Vehicle configuration and equipment are agreed individually.

Patient transport.
A considered layout.

Seat, stretcher and wheelchair layouts help operators choose a configuration for their transport requirements.

01 **Alternative layouts**

Seats, stretchers and wheelchair positions.

02 **ABS interior**

Components designed for easy cleaning.

03 **Lighting and oxygen**

LED lighting and an oxygen system.

04 **Power and climate**

An additional battery, heating and cooling.

05 **Storage and controls**

A control panel and medical equipment mounts.

06 **Medical fittings**

An infusion holder and seat occupancy sensors.

H&S turns your operational requirements into a configuration and quotation.

INTERIOR / ERGONOMICS

Space for the patient.
A layout for the operator.

The transport compartment can combine seats with stretchers or wheelchair positions.

Example layout with two stretchers.

Example interior with seating and a stretcher.

Photographs show separate examples of the manufacturer’s conversions and equipment.

CONFIGURATION

Choose your transport layout.

Separate layout examples described by the manufacturer:

01	6 seated passengers, no wheelchair positions
02	3 seated passengers and 2 wheelchair positions
03	5 seated passengers and 1 wheelchair position
04	4 seated passengers, 1 stretcher and 1 wheelchair position
05	3 seated passengers and 1 or 2 stretchers
06	4 seated passengers and 1 stretcher

These are separate alternatives. Seating capacity and documentation are established for the selected vehicle.

Further options

Storage, device charging, internal and external cameras, air suspension, and different stretchers and wheelchairs.

A platform for patient transport.

Opel Movano

The platform pictured in the manufacturer's photograph.

Chassis selection follows the transport layout and order requirements.

Documentation with H&S

For the selected vehicle, we establish the documentation for the conversion, equipment and registration.

An overview of solutions

This overview presents conversion possibilities. The specification and documentation scope are agreed for the order.
